Student Drug Testing for Activities Students

Holly Nevels, Assistant Superintendent
Justin Milner, Chief Operating Officer

June 3, 2019
UPDATE

July 2018
• Policy Approval, Implementation
• Consent and Opt-In Forms
• Counseling and Assessment Partnerships

August 2018
• Presentations of Expectations
• NPS coaches, sponsors, fine arts personnel

September 2018
• Testing begins
Testing Process

• Once a month at both high schools: September – May
• Testing times and days varied
• 32 participants tested each month, each high school (64 NPS students tested each month)
• Day of Testing
  • Randomized lists and alternate lists
  • Testing and chain-of-command
  • Set-up and student passes
1\textsuperscript{st} Positive Result:
Parent meeting with site administrator – no loss of athletics/activities time if...
- Required assessment with licensed drug counselor occurs within 5 school days and at parent/guardian cost
- Student agrees to remain in testing program and/or submit to another drug test if he/she is selected on a subsequent testing date.
- \((2018-19 – \textit{No loss of athletics/activity time occurred for any student.})\)

2\textsuperscript{nd} Positive Result:
Parent meeting with site administrator – suspension from activities for 14 calendars days and...
- Proof of 4 hours of counseling from a licensed drug counselor are completed at parent/guardian cost
- Student agrees to submit to a drug test each month for remainder of the school year
- \((2018-19 – \textit{No student received a 2\textsuperscript{nd} positive result.})\)
3\textsuperscript{rd} Positive Result:
Parent meeting with site administrator – suspension of participation in all activities for remainder of the school year OR one school semester (whichever is longer) with...

- Encouragement to complete an entire counseling program with a licensed drug counselor at parent/guardian cost.
- (2018-19 – No student received a 3\textsuperscript{rd} positive result.)

Refusal to Test:
- Viewed as a “positive” result
Results:
All results were handled by Medical Review Officer with testing company. Contact was made with parents by MRO.
• Confirmation, requests for retesting samples, and further reviews of the sample/results were done by testing company in coordination with parents
• District had no knowledge of this process other than to provide contact information when requested

District was given a list of negative results and, separately, a document of positive results per child only AFTER the Medical Review Officer had made initial and subsequent contact with the parent/guardian regarding possible positive results.
**DATA**

**Total Number of Students Tested**
- NHS – 224
- NNHS – 224
- NPS – 448

**Students Selected More than Once**
- NPS Total - 55

**Total Number of Positive Test Results**
1st Confirmed Positive -
- NHS – 4
- NNHS – 7
- NPS – 11 (marijuana)

2nd Confirmed Positive - 0
3rd Confirmed Positive - 0

**Total Time Lost in Activities/Athletics**
0

**Total Refusals to Test**
2

**DRUGS TESTED**
- Marijuana
- Cocaine
- Amphetamines
- Phencyclidine
- Opiates
- Synthetic Opiates
- Benzodiazepines
- Barbiturates
- Propoxyphene
- Methadone
- MDMA
**DATA**

**Impact on Activities/Athletics Participation**
(Unduplicated count of OSSAA Participation)

Supreme Court Case

- Allows mandatory drug testing by public schools of students participating in extracurricular activities
Feedback requested from parent/guardians of students who participated in the Student Drug Testing Program in 2018-19

Sent to 3697 contacts for 3006 eligible students

Results on following slides.
What grade did your child most recently complete?

403 responses
During the 2018-19 school year, was your child tested via our school drug testing program?
403 responses

- Yes: 25.3%
- No: 74.7%
If your child was tested, do you feel that his/her privacy was protected throughout the process (from testing to results)?

403 responses
Did the NPS drug testing program help you be better informed about your child's potential drug use/abuse?

403 responses

66.7% Yes
33.3% No
To your knowledge, has the existence of a student drug testing program caused the relationship that your child has with the school, administrators, coaches, and/or sponsors to be negatively impacted?

403 responses

90.1% Yes
9.9% No
Overall, how satisfied were you with the NPS Drug Testing Policy for Activities Students?

403 responses
Do you support the student drug testing policy as one effort of schools to identify and address student substance abuse?

403 responses

- Yes: 74.7%
- No: 17.9%
- No Opinion: 7.4%
Open-Ended Responses – Emergent Themes

In what ways could the NPS drug testing policy for activities students be improved?

- Test more students – in athletics/activities and otherwise
- Strong perception that Norman’s high schools do struggle with drug use on campus
- Make parent notification after student is tested (email or phone)
- Include nicotine (juuling, vaping, e-cigarettes)
- Do not test during core academic hours
- Require positives to re-test every subsequent test date
- Consequences for leaving when called to test
Vaping/Juuling/E-Cigarettes
• Introducing curriculum elementary through high school on prevention, dangers, negative health impacts
• Wellness coordinator – each school site

Increased Parent Education
• Fall 2019 – Dr. William Tanskersley, Department of Mental Health and Substance Abuse
  • Signs and Symptoms of Use and Abuse
  • Early Intervention Detection
