

BENEFITS

OF COMPLETING AN APPLICATION FOR
FREE AND REDUCED SCHOOL MEALS

Did you know you can receive more than reduced meal prices when you complete a free/reduced meal application?

Completed applications benefit all students. For example, any family that completes the application (even if they do not qualify for reduced meal prices), will receive FREE NPS Athletic Passes for students in their household. Passes are valued at \$40 and provide entrance to many athletic events at your child's feeder schools.

Also, schools that receive title funds can receive additional funding to purchase items that benefit all students at that school. Additional grant opportunities also exist for schools that serve free and reduced meals.
