Dimensions Vision:
To connect students to their future while restoring hope.

FCG Project Mission:
To plan, prepare and deliver a space that the Dimension students and faculty would be proud to call home. To provide the NPS system with a path to parity for the Dimensions program in a manner that fit within their budget and responsibility to the community.
Finishing Stages

Delivery and Turnover

• Central Learning Facility
  • 6/30/20

• Gym and Storm Shelter
  • On or Before 12/31/20
"I can't believe we are really getting all of this!"

"Better than we imagined"

"They really listened and kept the hallways small" (This is a positive quote because we the students feel safer in the smaller hallway, therefore they don't run)

"They have expressed several different ways and at different times that they feel as though EVERYTHING that we "stand for", fight for and strive for has been taken into account with the design of this new building. The essence of all our programs and layers has been captured and understood. They just can't quit smiling!

The staff is so overjoyed with having a gymnasium they are almost speechless. Additionally, having a cafeteria that will actually have the ability to cook the food, not just serve the food opens up so many more possibilities for the students."
